

TRAVEL TO SCHOOL

We know that getting to and from school can be one of the biggest worries for pupils and parents. We hope this information may be helpful.

The map above gives a guide to how long you might expect it to take to walk or cycle to Kings' from where you live, and shows all the local bus stops. It also highlights signalised crossings and crossing patrols to help you plan a safe route to school. There are lots of other tools and resources available at www.myjourneyhampshire.com/transition

SCHOOL BUSES

All of our school buses are arranged by Hampshire County School Transport. If you would like to apply for a place for your child on a school bus, or if you have any other questions relating to school buses, you can visit their webpage at www.hants.gov.uk/educationandlearning/schooltransport, or complete their contact form at <https://educationforms.apps.hants.gov.uk/p/school-transport-enquiry>

DROPPING OFF AND PICKING UP PUPILS

Main Staff Car Park

Our main car park is for staff and approved school transport only. It is not a safe place for children to walk through. We ask parents to use alternative drop off and pick up points for their children as our automated gates allow only staff and approved pupil transport to access the car park.

Rear Car Park

Following government advice in Keeping Children Safe in Education, our rear gates are not opened until 3.15pm each day, so parents in vehicles are unable to access this area. However, there is a designated pathway for pupils to exit the site safely and site staff on duty to assist with traffic management after this time.

Recommended safe drop off/pick up point

Our recommended safe drop-off/pick-up point is Pitt Park & Ride on Romsey Road where there is a footpath that leads to a designated crossing point on Kilham Lane. This is only a short walk to and from school (less than 10 minutes). Whilst there is a crossing point on Kilham Lane, we would advise that parents reinforce the importance of good road safety at all times by ensuring pupils use this point to cross the road. Using this option ensures less congestion on both Sarum Road and Kings Road. A video is available to show the safe walking route. This can be found on the Transition page of our website www.kings-hants.com
